

The first terahertz (THz) application workshop 17- 18 May 2011 Dayton, Ohio

Aims

This workshop will aim at bringing together new and existing terahertz instrumentation users. It will be an opportunity to share knowledge and understanding of the technology.

THz systems will be used for hands on demonstration of the equipment. Data processing and analysis techniques will be also extensively discussed.

The workshop will span throughout two days, with the opportunity of remaining a third day on -site for further hands-on demonstrations.

Throughout the two days there will be extensive opportunities for the users to discuss their projects in detail and to establish links to experts in this field.

Topics

Topics will include:

- Introduction to terahertz spectroscopy
- Data Analysis
- Terahertz imaging
- Hands-on use of terahertz equipment

Who should attend?

US researchers in academia , government, and industry wishing to learn more about terahertz application.

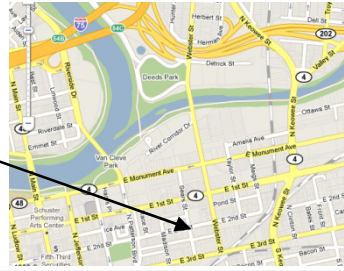

Costs

The cost of this 2-day workshop is \$500. Includes continental breakfast, lunch, workshop dinner at the hotel for the first night and workshop notes.
